

# Thanks a Million

*Celebrating the sale of our five millionth ton of Forest Stewardship Council® certified paper*

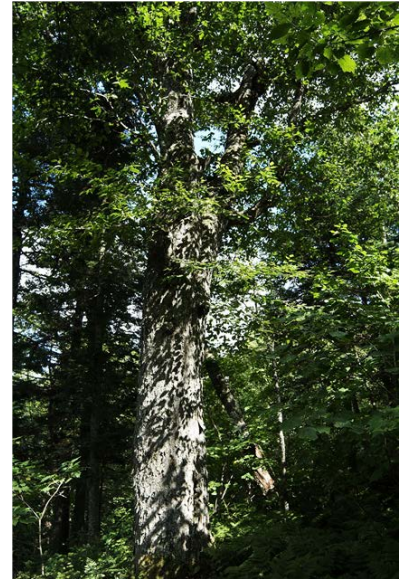

Dear Customers and Partners,

Today, Domtar is celebrating the sale of our five millionth ton of Forest Stewardship Council® (FSC®) certified paper. I wanted to take a moment to thank you – our customers and partners – for all that you've done to support this major milestone.

It was nearly a decade ago when Domtar revolutionized the industry by becoming the first company in North America to offer FSC certified copy paper. Since then, the EarthChoice® Product Line has grown to include the widest range of FSC certified papers available today, and some of the most recognized companies in the world have put their own commitment to responsible environmental practices on paper by choosing Domtar's FSC certified EarthChoice products.

We chose to work with the FSC because we believe in its core purpose: to promote sustainable forestry worldwide. FSC certification is widely recognized as the gold standard, and its clear labeling helps businesses, organizations and consumers across the country choose products that have been sourced sustainably.

Through it all, we've created a new model of collaboration – one in which paper companies and the world's leading environmental groups work hand-in-hand. We're also grateful to our loyal customers, who share our determination to bring reliable, sustainable products to the market. I invite you to view this [short video](#) for more on the important role customers play in driving demand for sustainable paper.

Here's to working together toward the next five million tons.

A handwritten signature in black ink, appearing to read 'Paige Goff'.
